# **SAFETY DATA SHEET**

Page: 1/14

**United States** 

Date of issue/Date of revision 2 April 2019 Version 11

| Section 1. Identification        |  |  |
|----------------------------------|--|--|
| Product name                     | : MEGASEAL HSPC Gray Primer Comp A   |  |
| Product code                     | : 99-12710/05  |  |
| Other means of<br>identification | : Not available.   |  |
| Product type                     | : Liquid.  |  |
| Relevant identified uses of      | the substance or mixture and uses advised against  |  |
| Product use                      | : Industrial applications, Used by spraying.   |  |
| Use of the substance/<br>mixture | : Coating.   |  |
| Uses advised against             | : Not applicable.  |  |
| Manufacturer                     | : PPG Industries, Inc.<br>One PPG Place<br>Pittsburgh, PA 15272                                      |  |
| Emergency telephone<br>number    | : (412) 434-4515 (U.S.)<br>(514) 645-1320 (Canada)<br>01-800-00-21-400 or + 52 55 5559 1588 (Mexico) |  |
| Technical Phone Number           | : 888-977-4762   |  |

# Section 2. Hazards identification

| OSHA/HCS status                            | <ul> <li>This material is considered hazardous by the OSHA Hazard Communication Standard<br/>(29 CFR 1910.1200).</li> </ul>  |
|--|--|
| Classification of the substance or mixture | : SKIN CORROSION - Category 1<br>SERIOUS EYE DAMAGE - Category 1<br>SKIN SENSITIZATION - Category 1<br>CARCINOGENICITY - Category 2<br>TOXIC TO REPRODUCTION (Fertility) - Category 2<br>TOXIC TO REPRODUCTION (Unborn child) - Category 2   |
|  | Percentage of the mixture consisting of ingredient(s) of unknown toxicity: 3.2% (Oral), 20.6% (Dermal), 98.2% (Inhalation)   |
|  | This product contains TiO2 which has been classified as a GHS Carcinogen Category 2 based on its IARC 2B classification. For many PPG products, TiO2 is utilized as a raw material in a liquid coating formulation. In this case, the TiO2 particles are bound in a matrix with no meaningful potential for human exposure to unbound particles of TiO2 when the product is applied with a brush or roller. Sanding the coating surface or mist from spray applications may be harmful depending on the duration and level of exposure and require the use of appropriate personal protective equipment and/or engineering controls (see Section 8). |
|  |  |

Product name MEGASEAL HSPC Gray Primer Comp A

ż

# Section 2. Hazards identification

# GHS label elements

Hazard pictograms

| Signal word                         | Danger  |  |
|-------------------------------------|---|--|
| Hazard statements                   | Causes severe skin burns and eye damage.<br>May cause an allergic skin reaction.<br>Suspected of damaging fertility or the unborn child.<br>Suspected of causing cancer.  |  |
| Precautionary statements            |   |  |
| Prevention                          | Obtain special instructions before use. Do not handle until all safety precautions have<br>been read and understood. Wear protective gloves. Wear eye or face protection.<br>Wear protective clothing. Avoid breathing vapor. Wash hands thoroughly after handling.<br>Contaminated work clothing must not be allowed out of the workplace.   |  |
| Response                            | IF exposed or concerned: Get medical attention. IF INHALED: Remove person to fresh air and keep comfortable for breathing. Immediately call a POISON CENTER or physician. IF SWALLOWED: Immediately call a POISON CENTER or physician. Rinse mouth. Do NOT induce vomiting. IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water or shower. Wash contaminated clothing before reuse. Immediately call a POISON CENTER or physician. IF ON SKIN: Wash with plenty of soap and water. Wash contaminated clothing before reuse. If skin irritation or rash occurs: Get medical attention. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a POISON CENTER or physician. |  |
| Storage                             | Store locked up.  |  |
| Disposal                            | Dispose of contents and container in accordance with all local, regional, national and international regulations.   |  |
| Supplemental label elements         | Sanding and grinding dusts may be harmful if inhaled. Do not taste or swallow. Wash<br>thoroughly after handling. Emits toxic fumes when heated.  |  |
| Hazards not otherwise<br>classified | Causes digestive tract burns.   |  |

# Section 3. Composition/information on ingredients

| Substance/mixture | : | Mixture                          |
|-------------------|---|----------------------------------|
| Product name      | 1 | MEGASEAL HSPC Gray Primer Comp A |

| Ingredient name                                | %           | CAS number |
|--|-------------|------------|
| Epoxy resin (MW ≤ 700)                         | ≥50 - ≤75   | 25068-38-6 |
| oxirane, mono[(C12-14-alkyloxy)methyl] derivs. | ≥10 - ≤20   | 68609-97-2 |
| 4-nonylphenol, branched                        | ≥5.0 - ≤10  | 84852-15-3 |
| Talc , not containing asbestiform fibres       | ≥1.0 - ≤5.0 | 14807-96-6 |
| barium sulfate                                 | ≥1.0 - ≤5.0 | 7727-43-7  |
| titanium dioxide                               | ≤1.0        | 13463-67-7 |
| Phenol, 2-nonyl-, branched                     | <1.0        | 91672-41-2 |

SUB codes represent substances without registered CAS Numbers.

Product name MEGASEAL HSPC Gray Primer Comp A

# Section 3. Composition/information on ingredients

Any concentration shown as a range is to protect confidentiality or is due to batch variation.

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

Occupational exposure limits, if available, are listed in Section 8.

## Section 4. First aid measures

If ingestion, irritation, any type of overexposure or symptoms of overexposure occur during or persists after use of this product, contact a POISON CONTROL CENTER, EMERGENCY ROOM OR PHYSICIAN immediately; have Safety Data Sheet information available. Never give anything by mouth to an unconscious or convulsing person.

## Description of necessary first aid measures

| Eye contact  | : Check for and remove any contact lenses. Immediately flush eyes with running water for<br>at least 15 minutes, keeping eyelids open. Seek immediate medical attention.   |
|--------------|--|
| Inhalation   | <ul> <li>Remove to fresh air. Keep person warm and at rest. If not breathing, if breathing is<br/>irregular or if respiratory arrest occurs, provide artificial respiration or oxygen by trained<br/>personnel.</li> </ul> |
| Skin contact | <ul> <li>Remove contaminated clothing and shoes. Wash skin thoroughly with soap and water<br/>or use recognized skin cleanser. Do NOT use solvents or thinners.</li> </ul>   |
| Ingestion    | <ul> <li>If swallowed, seek medical advice immediately and show this container or label. Keep<br/>person warm and at rest. Do NOT induce vomiting.</li> </ul>  |

### Most important symptoms/effects, acute and delayed

| Potential acute healt | h effects  |       |
|-----------------------|--|-------|
| Eye contact           | : Causes serious eye damage.   |       |
| Inhalation            | : No known significant effects or critical hazards.  |       |
| Skin contact          | : Causes severe burns. May cause an allergic skin reaction.  |       |
| Ingestion             | : Corrosive to the digestive tract. Causes burns.  |       |
| Over-exposure signs   | /symptoms  |       |
| Eye contact           | : Adverse symptoms may include the following:<br>pain<br>watering<br>redness   |       |
| Inhalation            | : Adverse symptoms may include the following:<br>reduced fetal weight<br>increase in fetal deaths<br>skeletal malformations  |       |
| Skin contact          | : Adverse symptoms may include the following:<br>pain or irritation<br>redness<br>blistering may occur<br>reduced fetal weight<br>increase in fetal deaths<br>skeletal malformations |       |
| Ingestion             | : Adverse symptoms may include the following:<br>stomach pains<br>reduced fetal weight<br>increase in fetal deaths<br>skeletal malformations   |       |
|                       | United States Pares  | 2/4.4 |

Product name MEGASEAL HSPC Gray Primer Comp A

# Section 4. First aid measures

## Indication of immediate medical attention and special treatment needed, if necessary

| Notes to physician<br>Specific treatments | <ul> <li>Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled.</li> <li>No specific treatment.</li> </ul>   |
|---|---|
| Protection of first-aiders                | : No action shall be taken involving any personal risk or without suitable training. If it is suspected that fumes are still present, the rescuer should wear an appropriate mask or self-contained breathing apparatus. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. Wash contaminated clothing thoroughly with water before removing it, or wear gloves. |

## See toxicological information (Section 11)

# Section 5. Fire-fighting measures

| Extinguishing media                            |   |
|--|---|
| Suitable extinguishing media                   | : Use an extinguishing agent suitable for the surrounding fire.   |
| Unsuitable extinguishing media                 | : None known.   |
| Specific hazards arising from the chemical     | : In a fire or if heated, a pressure increase will occur and the container may burst. Vapors may accumulate in low or confined areas or travel a considerable distance to a source of ignition and flash back. This material is very toxic to aquatic life with long lasting effects. Fire water contaminated with this material must be contained and prevented from being discharged to any waterway, sewer or drain. |
| Hazardous thermal decomposition products       | : Decomposition products may include the following materials:<br>carbon oxides<br>sulfur oxides<br>halogenated compounds<br>metal oxide/oxides  |
| Special protective actions for fire-fighters   | <ul> <li>Promptly isolate the scene by removing all persons from the vicinity of the incident if<br/>there is a fire. No action shall be taken involving any personal risk or without suitable<br/>training.</li> </ul>   |
| Special protective equipment for fire-fighters | : Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.   |

# Section 6. Accidental release measures

| Personal precautions, protec   | tive equipment and emergency procedures   |
|--------------------------------|---|
| For non-emergency<br>personnel | : No action shall be taken involving any personal risk or without suitable training.<br>Evacuate surrounding areas. Keep unnecessary and unprotected personnel from<br>entering. Do not touch or walk through spilled material. Do not breathe vapor or mist.<br>Provide adequate ventilation. Wear appropriate respirator when ventilation is<br>inadequate. Put on appropriate personal protective equipment. |
| For emergency responders       |   |

**United States** 

Page: 4/14

Product name MEGASEAL HSPC Gray Primer Comp A

# Section 6. Accidental release measures

| Environmental precautions | : Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains |
|---------------------------|---|
|                           | and sewers. Inform the relevant authorities if the product has caused environmental       |
|                           | pollution (sewers, waterways, soil or air).   |

| Methods and material | s for containment and cleaning up  |
|----------------------|--|
| Small spill          | : Stop leak if without risk. Move containers from spill area. Dilute with water and mop up<br>if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and<br>place in an appropriate waste disposal container. Dispose of via a licensed waste<br>disposal contractor.   |
| Large spill          | : Stop leak if without risk. Move containers from spill area. Approach release from<br>upwind. Prevent entry into sewers, water courses, basements or confined areas. Wash<br>spillages into an effluent treatment plant or proceed as follows. Contain and collect<br>spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or<br>diatomaceous earth and place in container for disposal according to local regulations<br>(see Section 13). Dispose of via a licensed waste disposal contractor. Contaminated<br>absorbent material may pose the same hazard as the spilled product. Note: see<br>Section 1 for emergency contact information and Section 13 for waste disposal. |

# Section 7. Handling and storage

## Precautions for safe handling

|  | United States Page: 5/14   |
|--|--|
| Conditions for safe storage,<br>including any<br>incompatibilities | : Do not store above the following temperature: 50°C (122°F). Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Store locked up. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination.  |
| Advice on general<br>occupational hygiene                          | : Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.  |
| Special precautions  | : Vapors may accumulate in low or confined areas or travel a considerable distance to a source of ignition and flash back. Vapors are heavier than air and may spread along floors. If this material is part of a multiple component system, read the Safety Data Sheet(s) for the other component or components before blending as the resulting mixture may have the hazards of all of its parts.  |
| Protective measures  | : Put on appropriate personal protective equipment (see Section 8). Persons with a history of skin sensitization problems should not be employed in any process in which this product is used. Avoid exposure - obtain special instructions before use. Avoid exposure during pregnancy. Do not handle until all safety precautions have been read and understood. Do not get in eyes or on skin or clothing. Do not breathe vapor or mist. Do not ingest. If during normal use the material presents a respiratory hazard, use only with adequate ventilation or wear appropriate respirator. Keep in the original container or an approved alternative made from a compatible material, kept tightly closed when not in use. Empty containers retain product residue and can be hazardous. Do not reuse container. |

Product name MEGASEAL HSPC Gray Primer Comp A

# Section 8. Exposure controls/personal protection

## **Control parameters**

### **Occupational exposure limits**

| Ingredient name                                | Exposure limits                                     |
|--|---|
| $\mathbf{E}$ poxy resin (MW $\leq$ 700)        | None.   |
| oxirane, mono[(C12-14-alkyloxy)methyl] derivs. | None.   |
| 4-nonylphenol, branched                        | None.   |
| Talc , not containing asbestiform fibres       | ACGIH TLV (United States, 3/2018).                  |
| -  | TWA: 2 mg/m <sup>3</sup> 8 hours. Form: Respirable  |
|  | OSHA PEL Z3 (United States).                        |
|  | TWA: 2 mg/m <sup>3</sup>                            |
| barium sulfate                                 | ACGIH TLV (United States, 3/2018).                  |
|  | TWA: 5 mg/m <sup>3</sup> 8 hours. Form: Inhalable   |
|  | fraction  |
|  | OSHA PEL (United States, 5/2018).                   |
|  | TWA: 5 mg/m <sup>3</sup> 8 hours. Form: Respirable  |
|  | fraction  |
|  | TWA: 15 mg/m <sup>3</sup> 8 hours. Form: Total dust |
| titanium dioxide                               | OSHA PEL (United States, 5/2018).                   |
|  | TWA: 15 mg/m <sup>3</sup> 8 hours. Form: Total dust |
|  | ACGIH TLV (United States, 3/2018).                  |
|  | TWA: 10 mg/m <sup>3</sup> 8 hours.                  |
| Phenol, 2-nonyl-, branched                     | None.   |

Z = OSHA 29 CFR 1910.1200 Subpart Z - Toxic and Hazardous Substances

### Consult local authorities for acceptable exposure limits.

| Recommended monitoring<br>procedures | - | If this product contains ingredients with exposure limits, personal, workplace<br>atmosphere or biological monitoring may be required to determine the effectiveness of<br>the ventilation or other control measures and/or the necessity to use respiratory<br>protective equipment. Reference should be made to appropriate monitoring standards.<br>Reference to national guidance documents for methods for the determination of<br>hazardous substances will also be required. |
|--------------------------------------|---|---|
| Appropriate engineering<br>controls  | : | If user operations generate dust, fumes, gas, vapor or mist, use process enclosures, local exhaust ventilation or other engineering controls to keep worker exposure to airborne contaminants below any recommended or statutory limits.  |
| Environmental exposure<br>controls   | : | Emissions from ventilation or work process equipment should be checked to ensure<br>they comply with the requirements of environmental protection legislation. In some<br>cases, fume scrubbers, filters or engineering modifications to the process equipment<br>will be necessary to reduce emissions to acceptable levels.   |

## Individual protection measures

Product name MEGASEAL HSPC Gray Primer Comp A

# Section 8. Exposure controls/personal protection

| Hygiene measures       | : Wash hands, forearms and face thoroughly after handling chemical products, before<br>eating, smoking and using the lavatory and at the end of the working period.<br>Appropriate techniques should be used to remove potentially contaminated clothing.<br>Contaminated work clothing should not be allowed out of the workplace. Wash<br>contaminated clothing before reusing. Ensure that eyewash stations and safety<br>showers are close to the workstation location.  |
|------------------------|--|
| Eye/face protection    | : Chemical splash goggles and face shield.   |
| Skin protection        |  |
| Hand protection        | : Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary. Considering the parameters specified by the glove manufacturer, check during use that the gloves are still retaining their protective properties. It should be noted that the time to breakthrough for any glove material may be different for different glove manufacturers. In the case of mixtures, consisting of several substances, the protection time of the gloves cannot be accurately estimated. |
| Gloves                 | : butyl rubber   |
| Body protection        | : Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.  |
| Other skin protection  | : Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.  |
| Respiratory protection | : Respirator selection must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected respirator. If workers are exposed to concentrations above the exposure limit, they must use appropriate, certified respirators. Use a properly fitted, air-purifying or air-fed respirator complying with an approved standard if a risk assessment indicates this is necessary.   |

# Section 9. Physical and chemical properties

| Appearance                                   |                               |
|--|-------------------------------|
| Physical state                               | : Liquid.                     |
| Color  | : Not available.              |
| Odor   | : Characteristic.             |
| Odor threshold                               | : Not available.              |
| рН   | : Not available.              |
| Melting point                                | : Not available.              |
| Boiling point                                | : >37.78°C (>100°F)           |
| Flash point                                  | : Closed cup: 93.33°C (200°F) |
| Material supports combustion.                | : Yes.                        |
| Auto-ignition temperature                    | : Not available.              |
| Decomposition temperature                    | : Not available.              |
| Flammability (solid, gas)                    | : Not available.              |
| Lower and upper explosive (flammable) limits | : Not available.              |
| Evaporation rate                             | : 1 (butyl acetate = 1)       |

# Section 9. Physical and chemical properties

| Vapor pressure                             | : 1.5 kPa (11 mm Hg) [room temperature]             |
|--|---|
| Vapor density                              | : Not available.                                    |
| Relative density                           | : 1.13  |
| Density ( lbs / gal )                      | : 9.43  |
| Solubility                                 | : Insoluble in the following materials: cold water. |
| Partition coefficient: n-<br>octanol/water | : Not available.                                    |
| Viscosity                                  | : Kinematic (40°C (104°F)): >0.21 cm²/s (>21 cSt)   |
| Volatility                                 | : 0% (v/v), 0.085% (w/w)                            |
| % Solid. (w/w)                             | : 99.915  |
|  |   |

# Section 10. Stability and reactivity

| Reactivity                         | : No specific test data related to reactivity available for this product or its ingredients.  |
|------------------------------------|---|
| Chemical stability                 | : The product is stable.  |
| Possibility of hazardous reactions | : Under normal conditions of storage and use, hazardous reactions will not occur.   |
| Conditions to avoid                | : When exposed to high temperatures may produce hazardous decomposition products.<br>Refer to protective measures listed in sections 7 and 8. |
| Incompatible materials             | : Keep away from the following materials to prevent strong exothermic reactions: oxidizing agents, strong alkalis, strong acids.              |
| Hazardous decomposition products   | : Decomposition products may include the following materials: carbon monoxide, carbon dioxide, smoke, oxides of nitrogen.                     |

# Section 11. Toxicological information

| Target organs                       | : Contains material which causes damage to the following organs: skin, eyes.  |
|-------------------------------------|---|
|                                     | Contains material which may cause damage to the following organs: kidneys, lungs, the reproductive system, liver, cardiovascular system, upper respiratory tract, central nervous system (CNS).   |
| Aspiration hazard<br>Not available. |   |
| Information on the likely ro        | outes of exposure   |
| Potential acute health effe         | <u>ects</u>   |
| Eye contact                         | : Causes serious eye damage.  |
| Inhalation                          | : No known significant effects or critical hazards.   |
| Skin contact                        | : Causes severe burns. May cause an allergic skin reaction.   |
| Ingestion                           | : Corrosive to the digestive tract. Causes burns.   |
| Over-exposure signs/sym             | i <mark>ptoms</mark>  |
| Eye contact                         | : Adverse symptoms may include the following:<br>pain<br>watering   |
|                                     | redness   |
| Inhalation                          | : Adverse symptoms may include the following:<br>reduced fetal weight<br>increase in fetal deaths<br>skeletal malformations   |
| Skin contact                        | <ul> <li>Adverse symptoms may include the following:<br/>pain or irritation<br/>redness</li> <li>blistering may occur<br/>reduced fetal weight<br/>increase in fetal deaths<br/>skeletal malformations</li> </ul>   |
| Ingestion                           | : Adverse symptoms may include the following:<br>stomach pains<br>reduced fetal weight<br>increase in fetal deaths<br>skeletal malformations  |
|                                     | ects and also chronic effects from short and long term exposure   |
| Conclusion/Summary                  | : There are no data available on the mixture itself. This product contains TiO2 which has been classified as a GHS Carcinogen Category 2 based on its IARC 2B classification. For many PPG products, TiO2 is utilized as a raw material in a liquid coating formulation. In this case, the TiO2 particles are bound in a matrix with no meaningful potential for human exposure to unbound particles of TiO2 when the product is applied with a brush or roller. Sanding the coating surface or mist from spray applications may be harmful depending on the duration and level of exposure and require the use of appropriate personal protective equipment and/or engineering controls (see Section 8). If splashed in the eyes, the liquid may cause irritation and reversible damage. Ingestion may cause nausea, diarrhea and vomiting. This takes into account, where known, delayed and immediate effects and also chronic effects of components from short-term and long-term exposure by oral, inhalation and dermal routes of exposure and eye contact. |
| Short term exposure                 |   |

# Section 12. Ecological information

Soil/water partition coefficient (Koc)

: Not available.

# Section 13. Disposal considerations

Disposal methods

: The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Care should be taken when handling emptied containers that have not been cleaned or rinsed out. Empty containers or liners may retain some product residues. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.

Disposal should be in accordance with applicable regional, national and local laws and regulations.

Refer to Section 7: HANDLING AND STORAGE and Section 8: EXPOSURE CONTROLS/PERSONAL PROTECTION for additional handling information and protection of employees. Section 6. Accidental release measures

## 14. Transport information

### **Additional information**

| DOT  | : None identified.   |
|------|--|
| IMDG | : The marine pollutant mark is not required when transported in sizes of ≤5 L or ≤5 kg.                    |
| ΙΑΤΑ | : The environmentally hazardous substance mark may appear if required by other transportation regulations. |

**Special precautions for user** : **Transport within user's premises:** always transport in closed containers that are upright and secure. Ensure that persons transporting the product know what to do in the event of an accident or spillage.

|                | SKIN SENSITIZATION - Category 1                                  |
|                | CARCINOGENICITY - Category 2                                     |
|                | TOXIC TO REPRODUCTION (Fertility) - Category 2                   |
|                | TOXIC TO REPRODUCTION (Unborn child) - Category 2                |
|                | HNOC - Corrosive to digestive tract                              |

### **Composition/information on ingredients**

| Name                              | %           | Classification                                    |
|-----------------------------------|-------------|---|
| Epoxy resin (MW $\leq$ 700)       | ≥50 - ≤75   | SKIN IRRITATION - Category 2                      |
|                                   |             | EYE IRRITATION - Category 2A                      |
|                                   |             | SKIN SENSITIZATION - Category 1B                  |
| oxirane, mono[(C12-14-alkyloxy)   | ≥10 - ≤20   | SKIN IRRITATION - Category 2                      |
| methyl] derivs.                   |             | SKIN SENSITIZATION - Category 1B                  |
| 4-nonylphenol, branched           | ≥5.0 - ≤10  | ACUTE TOXICITY (oral) - Category 4                |
|                                   |             | SKIN CORROSION - Category 1                       |
|                                   |             | SERIOUS EYE DAMAGE - Category 1                   |
|                                   |             | TOXIC TO REPRODUCTION (Fertility) - Category 2    |
|                                   |             | TOXIC TO REPRODUCTION (Unborn child) - Category 2 |
|                                   |             | HNOC - Corrosive to digestive tract               |
| Talc , not containing asbestiform | ≥1.0 - ≤5.0 | SPECIFIC TARGET ORGAN TOXICITY (SINGLE EXPOSURE)  |
| fibres                            |             | (Respiratory tract irritation) - Category 3       |
| titanium dioxide                  | ≤1.0        | CARCINOGENICITY - Category 2                      |
| Phenol, 2-nonyl-, branched        | <1.0        | ACUTE TOXICITY (oral) - Category 4                |
|                                   |             | SKIN CORROSION - Category 1                       |
|                                   |             | SERIOUS EYE DAMAGE - Category 1                   |
|                                   |             | TOXIC TO REPRODUCTION (Fertility) - Category 2    |
|                                   |             | TOXIC TO REPRODUCTION (Unborn child) - Category 2 |
|                                   |             | HNOC - Corrosive to digestive tract               |

## **SARA 313**

## One time notification

Date of issue 2 April 2019

Version 11

Product name MEGASEAL HSPC Gray Primer Comp A

# Section 15. Regulatory information

### Supplier notification

**Chemical name** : 4-nonvlphenol, branched

**CAS** number 84852-15-3

Concentration 3 - 7

SARA 313 notifications must not be detached from the SDS and any copying and redistribution of the SDS shall include copying and redistribution of the notice attached to copies of the SDS subsequently redistributed.

Additional environmental information is contained on the Environmental Data Sheet for this product, which can be obtained from your PPG representative.

# Section 16. Other information

Hazardous Material Information System (U.S.A.)

Flammability : 1 Physical hazards : Health : 3

(\*) - Chronic effects

Caution: HMIS® ratings are based on a 0-4 rating scale, with 0 representing minimal hazards or risks, and 4 representing significant hazards or risks. Although HMIS® ratings and the associated label are not required on MSDSs or products leaving a facility under 29 CFR 1910.1200, the preparer may choose to provide them. HMIS® ratings are to be used with a fully implemented HMIS® program. HMIS® is a registered trademark and service mark of the American Coatings Association, Inc.

The customer is responsible for determining the PPE code for this material. For more information on HMIS® Personal Protective Equipment (PPE) codes, consult the HMIS® Implementation Manual.

National Fire Protection Association (U.S.A.)
